

Gtechniq Ceramic Coating Application Guide:

Crystal Serum Ultra & Crystal Serum Light are both recommended for application to vehicle paintwork that has clear coat over the base paint.

C1 Crystal Lacquer is recommended for both single stage paint (no clear coat) and paint with clear over base, it is also recommended for matte & satin paints, plus gelcoat and powder coated surfaces. C1 Crystal Lacquer, along with Marine Ceramic Base are the only base ceramic coatings recommended for Caravans.

EXO can be used as a top hydrophobic coating over any of the above-mentioned ceramic coatings or as a stand-alone hydrophobic coating. It is also safe for use on matte & satin paints.

HALO is recommended for both PPF (Paint Protection Film) & Vinyl Wrap, and is suitable for gloss, satin and matte finishes.
